There were re-valuations of real property of the State for the years 1826, 1835, 1841, 1847, 1854, 1861, 1871, 1881 and 1891.

NOTE—Prior to 1826, real estate only was brought upon the duplicate for taxation for state purposes. Funds for county purposes were derived from a poll-tax, and a tax upon horses, mules and cattle, to which was added, by legislative appropriation, a percentage from one-fifth to one-half, varying with the several years, from the taxes levied upon real estate.

Under the act of February 3, 1825, which took effect March 1, 1826, all taxable property was placed upon the grand duplicate, viz: lands and town lots, including buildings, horses, cattle, pleasure carriages, over the value of one hundred dollars, and merchants' and brokers' capital, to which was added, "money loaned at interest," and "all grist, oil and saw-mills; all manufactories of iron, glass, paper, clocks and nails; all distilleries, breweries and tanneries; all iron, brass and copper foundries," under act of March 14, 1831,

Under the act of March 2, 1846, a new system of taxation was inaugurated, which with various slight modifications, is now in force.

The total includes the *per capita* tax on dogs, which amounted in 1892, to \$214,048.00

TABLE No. VII.

The following pages give the aggregate valuation of all the real and personal property placed upon the duplicate for taxation in each *township, town, city, village* and *separate school district* in the State, and the rates levied upon such property, stated in mills and decimals, upon each dollar for 1891 and 1892. The number of mills will therefore indicate the amount of tax in dollars upon each thousand dollars of valuation.

The rate is inclusive of two and seventy-five hundredths ($2\frac{75}{100}$) mills, levied for State purposes, and thus shows the entire tax for all purposes in each locality, except in rare instances where taxes for purely special purposes—such as taxes for road improvements, where abutting property only is taxed and collected on a separate duplicate, or where assessments are made against city lots at a rate per foot front—are placed upon the duplicate for collection for the benefit of contractors.
